THE TOWNHOMES

Designed for modern living, the Redwater Townhomes at Mernda Rise are spacious, stylish and functional. With their well-considered design, open-plan living areas and ample storage space, these townhomes epitomise low-maintenance living. Decidedly contemporary in their aesthetic, they have been carefully designed to complement Mernda Rise's builtform.

Featuring a range of floorplans specially designed to provide traditional family home accommodation on a compact footprint, the Redwater Townhomes offer maximum liveability. Then there's the light-filled spaces, generous accommodation and spacious communal areas. Rounding all this out are the quality inclusions and fittings throughout.

CENTRAL & SERENE

Every aspect of Mernda Rise has been designed to maximise the distinctive location. Our guiding vision is to create a unique community in total harmony with the surrounding area. That commitment extends to our superb Redwater Townhomes. Occupying a central location within Mernda Rise, the nine full-integrated townhomes are just moments from the distinctive pocket parks with their towering gum trees.

PROJECT TEAM

The Redwater Townhomes at Mernda Rise are the result of a close collaboration between Resimax Group's development team, building partner Tick Homes and design specialists Archtek. This unified approach delivers significant efficiencies and keeps the overall development vision pure. Importantly, it also ensures optimum build quality and maximum affordability.
